I meant to do what I dared to do and I still do not regret it.  
Even though I may gain nothing from it, my honesty must be plain in what I believe.  
Upon reflection, you must serve the commonweal and not one man alone.  
Even though they call me a priest-hater I will let them lie and say what they like.  
If I had concealed the truth, I should have many admirers.  
Now I have spoken out and have been banished for it.  
Though I shall flee no further I appeal to all honest men, and I may return.

# Rape Jihad: Dark Days for Europe

[Dr. Lasha Darkmoon](#), 3-4 February 2016

Consider these questions:

**Do you help to solve the migrant rape crisis in Europe by eating pork, growing beards, and parading round the streets in miniskirts when you're a man? Does it make sense to give "flirtation lessons" to the same migrants who are sexually assaulting European women in ever increasing numbers? Is it wise to help hostile migrants to "integrate" by giving them target-practice training, turning them into first-class snipers?**

**These are some of the more surrealistic aspects of the migrant rape crisis in Europe which I hope to cover in this essay.**

**ANGELA MERKEL, dressed in a Muslim headscarf – the woman most often blamed for the migrant crisis in Europe**

**Consumed with Holocaust guilt and possessed by the demons of pathological altruism, German Chancellor Angela Merkel has handed over her country to the endless hordes of the Third World. "Let them come . . . we can look after them all," she murmurs serenely, echoing the words of the altruists all over Europe bearing placards that scream: "REFUGEES WELCOME!"**

Merkel is an interesting case history: the guilt-ridden, traumatized leader of a deeply traumatized nation. Her way of handling the migrant crisis in Germany is not so much a stupendous example of pathological altruism at work as a symbolic act of self-flagellation on behalf of the German people, all of them engaged in varying degrees of self-flagellation over the Holocaust.

"The culture of the Holocaust is destroying Germany," Brenton Sanderson [notes](#) in a thought-provoking 3-part article in the *Occidental Observer*. "Endlessly reinforced over decades by the intellectual and media elite, the notion that Germans and their descendants are responsible for "the single most evil event in human history" has had such a demoralizing effect that millions fully support Angela Merkel's current attempt to destroy the ethnic basis of their nation."

To understand these words is to grasp the root cause of Germany's suicidal approach to the migrant crisis. Letting Germany be destroyed, the entire ethnic basis of the nation expunged, can be seen for what it is: a *collective act of atonement for the Holocaust*.

[1.5 million "refugees" last year](#), far more than any other country in Europe, with a predicted [4 million new asylum seekers](#) pouring into Europe in 2016, and [10 million more on the way](#). Many At this rate, it is widely predicted, there will soon not be a single White face left in Germany—or indeed anywhere else in Europe. In 50 years time, Europe will not only be multicultural, much to the delight of [Jewish activist Barbara Spectre](#), it will also be multicolored.

Last year a Muslim political activist warned the Germans: "We will marry your daughters and [conquer you with births!](#)"

"What's wrong with that?" you might ask if you've been infected by the virus of pathological altruism. Well, to start with, most well-balanced Europeans don't want to see their homelands invaded by unlimited numbers of foreigners from Africa, Asia and the Middle East. They maintain, quite rightly, "We're full up, [we're stuffed](#) to capacity!" Right now, for example, the

numbers of asylum seekers reaching the Greek islands is [thirty times higher](#) than it was last year. Yet last year itself (2015) had already seen a ["staggering" 750 PER CENT increase in migrants to Greece](#) compared with 2014. The situation is untenable. It cannot go on.

If Europe can be likened to the Titanic sinking beneath the waves, the last thing we can afford is to have more people piling on to the lifeboats.

## THE MIGRANT RAPE CRISIS

There is also, troublingly, the trifling question of *rape*. These Muslim migrants happen to be raping our women. In unprecedentedly large numbers. The situation, again, is untenable. It cannot go on. Something must be done to stop it.

That an epidemic of rapes by Muslim migrants in Europe is now taking place simply cannot be doubted or denied. The rape cases are being heard in several courts throughout Germany, including Cologne, where more than 600 German women have reported being sexually abused or robbed on New Year's Eve. I find it hard to believe that 600 different women are lying.

Here is an extended quote from a mainstream newspaper which says it better than anything I could. I have taken the liberty of editing and running separated sections together into a flowing, connected narrative without ellipses:

**Here in Leipzig, on Monday night, a local grassroots organisation called Pegida—Patriotic Europeans Against the Islamisation of the West—held an anti-migrant march and protest.**

**It was followed by a terrifying rampage through the city centre by a breakaway group of 500 thugs who set cars ablaze and attacked shops and fast food restaurants, some of them belonging to migrants.**

**The mayor of Leipzig, Burkhard Jung spoke of "terror on the streets" as he condemned the "naked violence". But given the febrile mood over migrants that now pervades all of Germany, there will almost certainly be more reprisals from the Far Right in the future.**

**The scenes in Leipzig—which has taken in 10,000 Merkel migrants—came after the mass sex attacks in Cologne, western Germany, on New Year's Eve.**

**During a barbaric night in that city's main square, a substantial group of Arabic-speaking men among 1,000 male migrants there deliberately targeted and assaulted hundreds of women. A staggering 652 complaints were received by the police.**

**Across Germany, including in Stuttgart, Dusseldorf and Berlin—not to mention towns and cities in Sweden, Finland and Denmark—it was the same New Year story. Nearly 50 women in Hamburg complained to police of sexual harassment by "North African men", who called them "bitches" and shouted "[Fiki!](#)" to indicate they wanted to rape them.**

**[There are] now an increasing number of women who are frightened to go out at night. Even a cursory glance at the latest police reports—now being released more freely—shows the shocking sex attacks are not going away.**

**Meanwhile in Hamburg, there have been a string of assaults. A white nurse was harassed by a 25-year-old Eritrean; a group of girls groped by two "North Africans"; a woman of 53 confronted by young men of "Arabian appearance", who exposed themselves, making obscene gestures.**

**Eight Afghan asylum seekers are accused of attacking a "large number of white women"; a 23-year-old Somali is under investigation for sexually abusing a ten-year-old white girl near a migrant reception centre.**

**Across the country, from east to west, it's been the same. In Leipzig, eight days after Cologne, a local woman of 31 was accosted by 15 men, apparently Arabs and North Africans, who pinned her down as she walked through the railway station at midnight, and thrust themselves at her.**

**In Bornheim, North Rhine-Westphalia, a leisure centre has banned all migrants after a schoolgirl was sexually assaulted in its public swimming pool by three Syrian teenagers.**

In the town of Halle, a 20-minute drive away [from Bornheim in Westphalia], the former four-star Maritim Hotel with indoor swimming pool, sauna and fitness room, was closed to guests last year after being turned into a giant migrant camp.

In Austria, Far-Right parties are trading on the fear engendered by migrants and calling for an immediate halt to asylum applications. In Finland, militia groups linked to the Far-Right, calling themselves Soldiers of Odin patrol towns at night to protect women from attacks. [Meanwhile, back in Germany] an Identitarian spokesman told the local Press:

**"What happened in Cologne is happening everywhere. There was an attempted rape here in Halle only yesterday. We want to help ensure that women can feel safe in our town." The leaflet they handed out went further: "Cologne is a symbol," it said. "It has shown that the state has failed to protect our borders. In the past year, more than a million illegal immigrants have entered our country and the state now cannot—or will not—protect women and girls.**

**It is up to us to defend ourselves. To fight back—for us, our families, our country. We demand the immediate closure of the border and the re-migration of all illegals to their home countries." — See [here](#), emphasis added.**

**Is all this being "made up" by an elite media owned**

by the usual suspects? I have no idea. It's up to you, the reader, to decide for yourself if these events are fact-based or fictional. To my mind, it would be stretching credulity to breaking point to argue that no Muslim migrant rapes, or very few, are taking place in Europe right now and that this entire thing is being blown up out of all proportion.

If anything, these disquieting events are being hushed up or minimized by the mainstream media. Not blown up. Thus you will note that the sexual misconduct of Muslim migrants in Germany has been squeezed into a single short 35-word paragraph in the block quote from the *Daily Mail* above: "In Bornheim, North Rhine-Westphalia, a leisure centre has banned all migrants after a schoolgirl was sexually assaulted in its public swimming pool by three Syrian teenagers."

That's all we get from the *Daily Mail* on this particular topic: 35 words. Further investigation reveals this is just the tip of a giant iceberg.

So much febrile sexual activity has been going on in German swimming pools—or rather leisure centers—that an entire article could be devoted to this unsavory subject. Indeed, entire articles have been. (See [here](#), [here](#), and [here](#)). I have brought these three different accounts into a single article under the umbrella title, [Muslim migrants 'banned' from swimming pools in Germany after shocking scenes of sexual misconduct](#).

Read on if you wish to know why the word 'banned' has been placed in inverted commas.

#### **MIGRANT SEXUAL MISCONDUCT IN GERMAN SWIMMING POOLS**

These shocking events, reported in the German tabloid *Bild* and aired on local radio, have been recorded on security cameras at the Zwickau swimming baths. Zwickau is a small city in Saxony, Germany, with a population of roughly 100,000 people, many of them recent Muslim migrants. The migrants involved, mostly Afghan and Syrian asylum seekers, were taken into police custody and investigated.

In almost every case, inexplicably, the 'ban' on migrants misusing pool facilities was lifted within a few days and the sex attackers released from police custody.

**"A group of migrant men and women were caught on security camera at the Johannisbad baths in Zwickau, Saxony," we read [here](#), "engaging in unacceptable behaviour, including masturbating into the jacuzzi. In separate incidents other groups of migrants were caught 'contaminating' the children's training pool by 'emptying their bowels in the water', and sexually assaulting other bathers, reports *Bild*."**

**The swimming pool in [Zwickau](#), Germany, where outrageous scenes of sexual misconduct were caught on security cameras**

In the stilted language of German bureaucracy, we read here of "an asylum seeker who masturbated in the hot tub and ejaculated into the basin." In another nearby pool, migrants had "contaminated the pool by getting rid of the contents of their intestines." All these incidents, as I say, were captured on surveillance cameras. So it's hard to see how these events can all be "faked", as some conspiracy theorists insist, unless everyone involved here is a "paid actor".

Zwickau in Saxony was not the only place in Germany where such events have occurred. Other cities in Germany that feature in this catalogue of sexual misconduct include Bornheim, Dresden and Munich. The infection has even spread to Vienna in Austria. Note that I am talking here specifically of sexual misconduct in *swimming pools* or leisure centers, not of sex assaults in general, such as those committed at Cologne on New Years Eve in which hundreds of German women were sexually assaulted by Muslim migrant gangs within the space of a few hours.

The ages of the children assaulted? From toddlers upward. In Vienna, a 3-year-old boy was sexually groped by a Muslim migrant in the children's pool. "One of them sidled up to my youngest child," his 37-year-old mother reports, "and put his hand [in my son's underwear](#)." For the most part, it's prepubescent and underage adolescent girls who appear to be the focus of attention. If they are not being groped in the swimming pool, it's while they're lining up to use the water slides. Are they safe in their changing rooms? No, even here they face the prospect of being assaulted in the showers or having their towels whipped away from them. (For further details, see [here](#), [here](#), and [here](#); or for convenience, all these three articles can be subsumed under one link, [here](#)).

There's no point rehearsing all the grisly details. If you're interested, you'll find them in the various links listed above. The only point that needs stressing here is this. In every single case, an identical pattern emerges. The migrants misbehave sexually in the leisure centers: groping the women there, including the children, jeering and hurling obscenities at them, exposing themselves, masturbating in the sauna, ejaculating into the hot tub, and defecating in the children's learner pools. Much of this outrageous behavior has been recorded on surveillance cameras.

This bad behaviour can be described as Step 1. Hard on the heels of Step One comes Step Two: being banned from using the facilities. That's the punishment for bad behavior. Step 3 follows next: the ban is lifted within days. So here is the invariable sequence: Bad behavior —> light token punishment —> complete forgiveness. All this within the same week sometimes. Step One then starts all over again. A vicious circle. After migrants misbehaved at the Bornheim bathhouse, for example, they were banned. "Under pressure from pro-migrant campaign groups," we learn [here](#), "the ban lasted just six days before being lifted."

It's now time to talk about rape and generalized sexual assault. Several German cities have been involved: Cologne, Leipzig, Hamburg, Berlin, Dusseldorf, Stuttgart. (See *Daily Mail* block quote above). Similar sexual assaults by migrants, some involving rape, have been reported from other European countries apart from Germany, notably Sweden, Denmark, Finland and Austria.

As has already been noted by a concerned European in the extended block quote above:

**"What happened in Cologne is happening everywhere. Cologne is a symbol. It has shown that the state has failed to protect our borders."**

### **PORK CONSUMPTION, PEPPER SPRAY, AND FLIRTING WITH THE NATIVES**

The whole atmosphere surrounding these mass rapes is bizarre in the extreme. Let me mention a few weird facts that were brought to my attention only in the last few days. All trivial in themselves, but nevertheless odd and troublingly significant.

The first news snippet, which you can find in the [Daily Mail](#), informs us that Denmark is now taking tough measures to keep Muslim migrants out of their country. What measures? Well, in certain parts of the country, orders have been issued to the effect that all Danish schools should have [pork on their school lunch menus](#) every day. That will scare the Muslim migrants away and, with any luck, make them head for nice pork-free countries!

Incidentally, Denmark is the country where the Brits and other European nations get a lot of their bacon from. According to a Danish councillor in Randers, Frank Noergaard, pork remains "a central part of Denmark's food culture." So it's all right to have pork on the school lunch menu every day in Denmark. One can imagine the Muslim migrants in Denmark having a hissy fit about this and crying foul. *"That's not fair! We want our children to be offered pork-free meals in Danish schools! Death to bacon!"*

The second snippet of news, even more surrealistic, is that rape-prone Muslim asylum seekers in Belgium are being offered **"lessons on how to flirt"** with Belgian women by the Belgian authorities. "Civilized flirting", they call it. Frankly, I am puzzled at the psychology behind this move. White Belgian females, terrified of being approached by sex-hungry Muslims, are arming themselves with pepper spray and mace and going around in groups for extra safety, and here their government is offering "flirtation lessons" to these sexually supercharged migrant males with only one thing on their minds: *"Fiki, fiki!"*

Read for yourself and draw your own conclusions:

**Asylum-seekers in Belgium are to be given lessons in civilised flirting so that they learn to respect women.**

**Tips such as 'be funny' and 'make eye contact, but don't stare' have been listed in brochures to be distributed to refugee centres across the country.**

**Men are allowed to kiss other men, and prostitutes should be respected, [the brochure states](#).**

In Germany and elsewhere, however, women are now being offered free pepper spray to ward off would-be sexual attackers—doubtless known in ultraliberal circles as "civilized flirts" doing their best "to respect women".

**"The pepper sprays," we learn without surprise from a [newspaper report](#), "were snapped up by the local women and girls. Nationwide sales of pepper spray have jumped by 600 per cent with supplies running out in parts of the country. According to KH Security, a German manufacturer of the spray, sales are the highest since the company was founded a quarter of a century ago. A store owner near Leipzig has reported he is now selling up to 200 cans of the spray each day, compared with five a week before the migrant crisis began. The customers? Women of all ages and men buying weapons for their wives."**

### **IT'S A MAD WORLD**

And what measures, you might wish to know, are the men in Holland taking to protect their womenfolk from the invasion of their country by Muslim migrants with rape on their minds? *Draconian measures!* Some are protesting this horrendous situation by marching round the streets of Amsterdam in *miniskirts!*

While the miniskirt warriors chant "NO MORE IMMIGRANTS!" a counter demonstration of liberal altruists, coming from the opposite direction and waving their placards, are screaming "REFUGEES WELCOME!"

The mind boggles.

**Arms linked in solidarity, here is a contingent of Miniskirt Warriors in Amsterdam hoping to solve Europe's migrant problems by displaying their shapely legs. [Here](#) is another valiant Dutchman who obviously believes that men in miniskirts is the answer to Europe's immigration crisis.**

Yes, it's a mad world all right.

The Netherlands happens to be one of the most densely populated regions on earth. 50.3 per cent of the people here don't have a Dutch origin. Almost everyone you see milling around the streets of Amsterdam has brown skin and speaks a non-European language. If he is male, he has an eye for the white Dutch girls. This can be a problem. We are told that at least 30 per cent of these people are foreigners "who live in the city for years and learn no Dutch and even make [no Dutch friends](#)." So if they don't speak Dutch, how do they chat up the gorgeous Dutch girls? Answer: they don't bother.

The problem is compounded by the Dutchman's weakness for liberal attitudes, a weakness that amounts to pathological altruism. They call it by a nicer name, however: [samenleving](#), which can be loosely translated as "community spirit" or "living together in harmony", which in turn is conducive to extreme tolerance of foreigners and their often overtly aggressive ways. To put it crudely and perhaps a bit tactlessly, the Dutch population—which can be seen as representative of Europe's population as a whole—consists of increasingly large numbers of [feminized males who can best be described as "wimps"](#).

Not only are these namby-pamby European males doing nothing to protect their women from the sexual onslaughts of the testosterone-flushed foreign males who have invaded their country, their very governments are led by guilt-ridden pathological altruists like Angela Merkel.

German politician Siegbert Droese, president of the populist Eurosceptic party, Alternative for Deutschland (AfD) in the eastern city of Leipzig, has no time for German Chancellor Angela Merkel. He thinks Frau Merkel is crazy.

**"Frau Merkel, [she's not right in the head](#)," says 46-year-old Siegbert Droese, pointing his finger at his temple. "She tells people from all over the Islamic world to come here to paradise. The numbers are mind-boggling and could reach ten million. [That's] when the migrants bring members of their families over to join them. So many young men arriving every day with high testosterone and little respect for women mean the New Year sex attacks in Cologne will be repeated. I am not alone in thinking this."**

It's true. According to a recent survey, half the German population is now deeply disillusioned with Frau Merkel, the ultimate exemplar of the Pathological Altruist. (See [here](#)).

Only quite recently top psychiatrist and best-selling author Hans-Joachim Maaz released a statement to the effect that Angela Merkel's refusal to reverse her "completely irrational" policy on accepting migrants was evidence that she was undergoing a "mental breakdown", adding that the German leader had ["lost touch with reality"](#).

The prospects for Europe look bleak, given that even its leaders are now widely perceived as "not quite right in the head". To make matters worse, there are no strong men left to guard the gates. A thick pall of liberalism, pathological altruism, and feminized wimpishness hangs over the entire European continent like a black cloud, portending certain doom.

Unless, of course, drastic remedies are soon applied to what is clearly a drastic disease.

**“There is no place in modern Europe for ethnically pure states. That’s a 19th century idea and we are trying to transition into the 21st century, and we are going to do it with multi-ethnic states.” – Retired General Wesley Clark**

Here are a few disquieting facts and figures that tell their own tale.

Going on the available 2009 figures—the figures are far higher now in 2016—the total number of foreign citizens living in Europe is roughly 32 millions. More than half of these (16.8 million) live in *three* European countries: Germany, Spain and the UK. Germany comes out top of the list with 7.2 million, yet the out-of-touch Angela Merkel is happy to take in *more*, seemingly impervious to logic and facts. The horrific sexual assaults of over 600 German women in Cologne on New Year’s Eve has left Merkel seemingly unmoved. Spain is second in Europe’s Top of the Pops for foreign citizens flooding in, with 5.6 million immigrants, and the UK comes in third with just over 4 million. (See [here](#))

**LONDON, ‘THE CITY OF DREADFUL NIGHT’**

As for the UK, London, the nation’s bustling capital city of 8.6 million people, contains [only 44.9 percent White Britons](#). Another 14.9 percent here are classified as ‘Other Whites’, with large numbers from Poland, Hungary, Rumania and elsewhere. 44 per cent of Londoners are now Black or of some other non-White ethnic origin. Almost every face you see in Oxford Street, London, is non-White. Occasionally a white face will pop into view, a face generally looking flustered and alarmed. In 15 years’ time, by 2031, the number of foreigners is set to outnumber the native Brits in London.

I am not exaggerating, but the last time I was in Oxford Street with my sister, we must have had our bottoms pinched at least half a dozen times by frisky young men from foreign lands. A bruising experience for both of us. Black taxis, filled with outlanders with interesting complexions, inched past us like bloated slugs on wheels, disgorging their passengers onto the pavements at regular intervals. Among the torpid taxis, to our amazement, we saw a rickshaw carrying an Arab family to their destination, probably to the plush magnificence of the Ritz Hotel or Claridges’. I felt like I’d fallen off the moon and landed in the seventh circle of Dante’s hell.

Am I making this up? If I am, so are all the newspapers I read, for they tell pretty much the same story. Apparently, you have to be a really rich foreigner to afford a rickshaw ride in London these days. The going rip-off rate is £206 (\$292) for a [three-minute ride](#).

How are the Brits coping with the Muslims in their midst? Not very well. Especially in the Midlands in places like Rotherham and Rochdale where Pakistani sex gangs have been [grooming White underage girls](#) to multi-partner sex. Roughly 1,400 white teenage girls have been sexually abused, prostituted and gang raped over a 10-year period in this densely populated area full of Muslims. The local authorities have done virtually nothing about it.

I’ll say that for these dashing Lotharios from the Far East. They can’t have enough of our White girls. In a way, it’s a pity that English girls are among the loveliest in Europe—and the easiest to bed. I doubt if that’s the main reason so many foreign migrants flock to Britain, though I’ve no doubt it’s one of the perks. Indeed, a recent article in the *Daily Mail* quotes one young Afghan immigrant commenting favorably on the “sexual

opportunities” available in proud Britannia for foreign migrants like himself: “As he put it, in his village, if you slept with more than one person in your life, ‘they shot you in the back’. In Britain, however, [sexual opportunities were immense](#).”

My own recent visit to London took me into a world I barely recognized, a city I had lived in for many years during my late teens and early twenties but had religiously avoided as much as possible ever since. A recent book with the rousing title [This is London: Life and Death in the World City](#), by Ben Judah, who is clearly Jewish, was to reinforce my own impression that the city of my youth had indeed morphed into a new City of Dreadful Night, ten times more nightmarish than the city depicted in the [famous Victorian poem](#) by James Thomson.

I was to witness with my own shocked eyes that the old white-skinned city of Shakespeare and Dickens, bursting with barrow boys and cheeky cockneys and sellers of roasted chestnuts and steak-and-kidney pies, had seemingly altered overnight and become a foreign metropolis filled with scary men in turbans and mysterious women in hijabs, all elbowing you out of the way as they made a bee-line for the great department stores or shot through the doors of curry houses and kebab shops in search of refreshment. The English upper classes, the Bertie Woosters and their impeccable Jeevesian manservants, were no more to be seen in elite Mayfair. The Russian oligarchs and the Chinese nobility had moved in and taken over.

Criminal gangs now decide who comes to Britain and settles here. The government is a joke. It has shelved all its responsibilities for looking after its own people but does its best all the same to go through the motions of democracy and pretend it loves the people it rules. As a recent report in a mainstream newspaper points out bleakly: “When it is so easy for migrants to get here, it is just as simple for the [world’s nastiest criminals](#) to relocate to the UK, too.”

Take a look and you will see . . . the City of Dreadful Night shimmers into view, a neon nightmare of sleaze, violence, and ruthless exploitation. This is a city, we are told, [“hidden from official statistics](#), a whole illegal city of several hundred thousand people, nearly half of them thought to have arrived after 2001.” The influx of foreigners has pushed down wages steeply, so much so that skilled workers in the building trade who used to get £15 an hour (\$21) now have to work for £7 an hour (\$10), bringing them onto the breadline and making it impossible for them to rent decent accommodation or raise a family. The situation for the hundreds of thousands of exploited illegals in London is infinitely worse. In comparison, slaves in Ancient Rome or servants in the British raj enjoyed a higher standard of living and were far happier.

Here is the situation as seen through the eyes of contemporary social historian Ben Judah, filtered through the prose of *Daily Mail* columnist Harriet Sargeant:

**Somalian gangs terrorise estates in South London and Turkish gangs control North London. Kurds and Albanians launder their money through the car washes in Tottenham and Kilburn. Vietnamese gangs grow and distribute two-thirds of the strong cannabis on the capital’s streets.**

**The sex industry is another area [that] has had a malign effect. 96 per cent of London’s prostitutes are now migrants. Typically, they [the Albanian gangs] lure girls from Moldova with promises of modelling jobs, but then rape and traffic them.**

**Finally, migration has even changed the nationality of London’s vagrants. There are now around 5,000 – mostly Polish and Romanians – living rough on London’s streets. In North London, they unload trucks for Turkish shopkeepers in exchange for nothing more than their drink of choice, White Ace cider. Others have been found [roasting rats for food](#) in the back alleys of Tottenham and Haringey.**

**In this new London, increasingly there is one nationality significant for its absence – white, British-born.**

A man from Grenada whom Ben Judah interviewed told him he had come to England at the age of 12 with high hopes. His family had dreamed of a better life but suddenly found themselves in a “war zone”. The only way the boy could survive

was to become a cocaine dealer. "Within six months of being here," he reports ruefully, "[I lost 75 per cent of my morals.](#)" He was one of the lucky ones. He might well have lost the other 25 per cent of his morals, too, if he'd found himself in a back alley—roasting rats for food.

What are the politicians doing to cope with this never-ending influx of foreigners from the Third World? Precisely nothing. The best of them are simply twiddling their thumbs and making the right noises. *Oh gosh, isn't it time we did something?* The worst of them, either on the payroll of the hidden Puppet Masters or infected with a pathological altruism that knows no bounds, are doing the opposite: advocating an open-door policy for more immigrants—like mentally deranged doctors, confronted with the bubonic plague, crying out like lunatics: "*Let's have more rats!*"

**Between 15,000 and 20,000 Belgians join a solidarity march in support of the invasion of their own country by the inhabitants of the Third World. Here the demonstrators are seen, on a sunny afternoon in Brussels, calling out "Refugees Welcome!" and demanding [an end to "racism and xenophobia."](#) This is happening all over Europe. Ironically—and this is the crowning touch of Alice-in-Wonderland absurdity—White women have even been [sexually molested at a "Refugees Welcome" party.](#)**

This morning I read about a frail 72-year-old Austrian lady who was raped by an Afghan immigrant while taking her dog for a walk by the river. She stays home all the time now, traumatized, trusting no one. Meanwhile, her Afghan rapist emerges as the hero of this little horror story. We learn that the Austrian judges found "mitigating circumstances" for the rapist, including the fact that he was only 17 years old and this was the first time he'd ever raped a septuagenarian pensioner.

Deport him? *Heaven forbid!* Can't have that, can we? It would violate his human rights. (See [here](#))

Apropos of the 72-year-old Austrian pensioner, it's a good thing she doesn't live in Denmark with access to pepper spray. Because if she'd tried to fight off her Afghan rapist with pepper spray in Denmark, she would have landed herself in big trouble. She would have been hauled before the courts and given a stiff fine, or even a prison sentence, for subjecting her rapist to "disproportionate violence".

I spoke earlier about the booming sale of pepper sprays in Germany as defensive weapons that women could use against their would-be rapists, Muslim or otherwise. It seems I spoke too soon. In Denmark, I was to learn to my surprise this morning, pepper sprays have been banned. Women who use them can be prosecuted for harming their attackers. A Danish teenager in the coastal town of Sønderborg was recently knocked to the ground by her assailant who then proceeded to undress her in public. This actually took place in the town center, with lots of people milling round. That's pretty scary if you come to think of it. When rape becomes a spectator sport, we've reached the end of the line.

The 17-year-old girl managed to scare off her attacker with pepper spray. She has now been told **she will be prosecuted**—for trying to defend herself with a dangerous chemical.

Lunacy, it seems, has no bounds.

What's happened to all these people? Why can't they wake up? Even lemmings don't behave like this.

#### **'QUOS DEUS VULT PERDERE, PRIUS DEMENTAT'**

The future for Europe looks bleak. It has changed beyond all recognition in the last few years. What it will be like in twenty

years' time is best left to the imagination of a horror fiction writer.

At the pulsating epicenter of Europe, German Chancellor Angela Merkel takes on the role of Pied Piper of Hamelin, leading her people and the rest of Europe to perdition. The Pope and his cardinals, likewise, well cushioned at the Vatican from the harsh realities of existence, recommend taking in even *more* "refugees", equally indifferent to the impending demise of Europe and the destruction of its indigenous people.

At the same time in Sweden, [rape capital of the West](#), the bovine Swedish government has come up with the bright idea of offering "sniper training" to Muslim migrants, euphemistically billing it as "[target practice.](#)" I'll leave you to figure out who the *targets* are most likely to be.

Only recently a young Swedish aid worker, Alexandra Mezher, 22, was knifed to death at a child refugee center in Gothenberg by a fully grown Somalian asylum seeker pretending to be a helpless [child orphan.](#) Many of the Muslim "child refugees" in Sweden are in fact adults [sporting bushy beards.](#) (See also [here](#)). In Stockholm, in 2015, a group of alleged "child refugees" from North Africa [brutally gang raped a Swedish girl](#) for several hours. Doubt the story if you wish, but reflect: there are too many stories like this for *all* of them to be untrue. No smoke without fire.

Even as I write, there is talk of the UK letting in a contingent of [3000 refugee "children"](#). How many of these will have beards is anyone's guess.

Talking of beards, listen to this. Quick pan once again to perfidious Albion, country of mist and melancholy—and now, alas, of mad hatters. Step forward the Bishop of London, the Right Reverend Richard Chartres, number three in the hierarchy of the Church of England. He tells us he has just discovered a brilliant way to win the hearts and minds of our Muslim brothers. "Recover the hirsute tradition of earlier ages." the good Bishop solemnly advises his clergy. "[Reach out to Muslims by growing a beard.](#)"

This episcopal advice to clergymen is being interpreted by the intellectually challenged as advice to *all* men in general: grow beards if you want Muslims to treat you with respect.

The world gets crazier by the minute.

There's an old proverb that goes: "Those whom the gods wish to destroy they first make mad." If you prefer it in Latin, *Quos deus vult perdere, prius dementat.*

#### **DARK DAYS FOR EUROPE**

Emerging from the green slime, here is Bill Maher, Jewish TV host, comedian and political commentator, looking into his crystal ball and having a nice gloat at the imminent demise of the White race:

Some time in the distant future, brown people are probably going to—and I say this without judgment—breed their way to power in both Europe and America. Arab populations are growing in countries like France and Holland, and I think we all see where this Mexican thing is going in America.

That's right, *because they fuck more,* [the darker skinned people are going to rule the world!](#) And white people, for their own self-preservation, should get a start on being nice to them now! *Nice!*"

There's no doubt about it. White genocide in the European homelands is now underway. It is taking place right now, even as you read these lines. And this has received the full support of the [organized Jewish community](#) in Europe and the US. (See also [here](#)). But we have also quoted a few individual Jews here already: Barbara Spectre, General Wesley Clark, and Bill Maher, and double anti-White theorist [Noel Ignatiev](#) is on board with this too. Let Israeli writer Yigal Ben-Nun have the last word:

"Arab migration has been the best thing that's happened to Europe in the past 50 years. Arabs in Europe are a fact of life. It's time we started to accept that there's no way to block the migration of Chinese, Pakistanis or Arabs to Europe. It's true, Europe won't be what it once was, but that's a good thing. The more migrants from Africa and Asia who arrive, the better off Europe will be. Sooner or later, their children and grandchildren will marry into veteran European families and change the demographics of their countries. [Europe will be different.](#)"

#### **CONCLUSION**

The rape jihad we see suppurating in Europe like a black pus is symptomatic of a killer disease. The evil end results of multiculturalism and mass immigration can be highlighted and summed up in two words: WHITE GENOCIDE. White genocide is indeed the fate that awaits Europe, and then America and the other homelands of the European people, unless this deadly disease is brought swiftly under control.

I will round off this essay by posting a short video that says more in five minutes than I have been able to say in 5000 words. Please don't miss it. It is in French, with English subtitles. Don't let that deter you if English is your only language. It's not necessary to know French to be moved to tears by the eloquence of this paean of praise to Europe and the achievements of our ancestors.

This poignantly sad video, though triumphal and defiantly optimistic in its tone, tells you what is at stake if we lose Europe—our precious Mother Europe, source of our lifeblood and all the values we hold dear.

Norbert Knobloch zu Angela Merkel:

ANGELA MERKEL wird als erstes Kind von HORST KASNER, geb. KAZMIERCZAK, und HERLIND KASNER, geb. JENTZSCH, in 1954 in Hamburg (nach unbestätigten Quellen allerdings in den U.S.A.) geboren und bekommt den Namen ANGELA DOROTHEA KASNER. Sie hat (angeblich) zwei Geschwister, Bruder Marcus und Schwester Irene. Der Vater, uneheliches Kind von ANNA RYCHLICKA KAZMIERCZAK und LUDWIK WOJCIECHOWSKI, ist evangelischer Pfarrer; die Mutter, eine polnische Jüdin aus Galizien...(this and more was posted some months ago on TOO only in German.)

Norbert Knobloch\* (my translation)

A Merkel was born as the first child of Horst Kasner, born KAZMIERCZAK, and Herlind Kasner, born JENTZSCH, in 1954 in Hamburg (acc to unconfirmed sources in the USA). Her name is Angela Dorothea Kasner. She (allegedly) has two siblings, brother Marcus and sister Irene. Her father, the illegitimate son of ANNA RYCHLICKA KAZMIERCZAK and LUDWIK WOJCIECHOWSKI, is a protestant priest. Her mother is a Polish Jewess from Galicia...

\* N. Knobloch is a rather "colourful character". He considers himself to be a 'spare time philosopher', private lecturer and is of the opinion that conventional medicine is a fraud, and petrol can be extracted from sand. Above all he looks like an Indian Guru. He has developed cancer and begs for donations for his

'alternative medical treatment. He also has something to say abt UFOs.

Unless I see a birth certificate, I prefer not to believe anything from this source re her Jewish mother. It is actually totally immaterial whether she is Jewish, Muslim, German or Polish. Under her 10 year rule Germany is gone "kaputt" for good. AM has, however, strikingly light blue eyes. There was in the past another male chancellor with strikingly light blue eyes, (and sporting a BIG nose) who also drove Germany against the wall. But he did it the other way around., violating other countries borders by crossing them, she does it by letting invaders crossing Germany's neighbours borders and into the "fatherland".

However, there is a Charlotte Knobloch, the former president of the Jewish Community living in Germany. I don't think there are any family connections here!

ikat – well, it is at least somewhat material what "her" (it's) ancestry is – since it is obvious that Sau "Merkel" (Kaźmierczak) does seem to have quite the hatred for Germany in "her" *schwarzes herz* (black heart). The family, at the very least, has significant Polish (and possibly Jewish) ancestry from the lands of eastern German settlement – and it seems she descends from a long line of *Verräter* (traitors) in her degenerate clan – some might even call 'em *elender Verräter* (wretched traitors) – and, \*most importantly\*, *sleazy opportunists*, above all.

Her grandpappy, Ludwik Kaźmierczak, was originally in the German army during the First World War, who turned traitor-turncoat, and fought with the 'Entente' in France after surrendering and being taken prisoner. The contemporary German *lügenpresse* (lying press) claims they "don't really know" if he fought and took up arms against Germany (yeah riiiiight).

After the war the part of the German Empire the traitor Kaźmierczak came from was partitioned to Poland (Posen) thanks to the Versailles Treaty, and sure enough, the first thing the hypocrite did was immediately opt for German citizenship rather than stay among his Polish "brothers", moved to Berlin, Germanized their family name from Kaźmierczak to Kasner in 1930 (to better facilitate crypsis, perhaps?!?). Sleazebag.

[https://en.wikipedia.org/wiki/Ludwig\\_Kasner](https://en.wikipedia.org/wiki/Ludwig_Kasner)

Then, her pappy, Whorst (Horst), goes from being an alleged *HitlerJugend* member (Hitler Youth), to after the war voluntarily moving from Hamburg in West Germany to the Communist DDR at the height of its repression – as a Lutheran pastor, no less – where his kids become good Communist party members ... and Stasi informers.

No wonder that his nickname during the DDR times was "Red Kasner":

*Kasner was regarded as a religious leader and idealist who did not oppose the church governance or the policies of the Socialist party, unlike Schönherr and Hanfried Müller (members of the Weissensee Work Group (Weißenseer Arbeitskreis) standing in opposition to dominant national-conservative trend of Berlin-Brandenburg bishop Otto Dibelius). From a perspective of governance, Kasner was considered one of the more "progressive" forces. His nickname during GDR times, quoted*

repeatedly in the press, was "Red Kasner." He was the longtime director of the pastoral college in a key position within the Evangelical Church in Berlin-Brandenburg. All theologians were required as part of their education and training to spend some time as a vicar with their second theological examination in Templin. In this context there is little record of any pressure put on pastors to conform to the system. Theologian Richard Schröder wrote in 2004:

*For me, Kasner was always trustworthy and certainly no conformist. The Pastor's College in Templin was always for us a window on the West through means of Western lecturers and Western literature. The theological speakers were not handpicked to toe the line.*

*Kasner took trips abroad as part of the National Front and was given the privilege of travelling to the West either by company car or private vehicle, which could be procured through Genex. On the other hand, his wife, Herlind, was forbidden to do so due to her position as a GDR teacher. A recruitment effort by the Stasi is presumed to have failed. Unlike the children in other pastors' families, the higher education of the Kasner children was not impeded.*

*From the late 1960s onwards, Kasner criticised the social order of West Germany, and he did not support reunification*

*Kasner's regular interlocutors in terms of church politics were Wolfgang Schnur and Clemens de Maizière, the father of the later last GDR prime minister Lothar de Maizière. Schnur, later chairman of the opposition party Democratic Awakening, was a member of the Synod (cf. general assembly) of the Evangelical Lutheran State Church of Mecklenburg and temporarily vice president of the Synod of the Evangelical Church of the Union and the Synod of the Federation of the Protestant Churches in the GDR (Bund der Evangelischen Kirchen in der DDR). He was, alongside the Synod of the Berlin-Brandenburg Church, one of the earliest members of the Christian Democratic Union in East Germany. Also negotiating alongside Kasner, Schnur, and de Maizière with the East German government from 1979 to 1988 and its state secretary for church affairs, Klaus Gysi.*

I think there is more than one goal for their agenda in opening the doors to the very people the West has been bombing for 15 years.

For one thing, Europeans have grown more and more partial to Palestinians. This has enraged people like Netanyahu. The flooding of Europe of Males of military age, who are LIKELY paid to assault the natives, serves to anger and turn Europeans towards the Israeli sympathy.

Second, it is like a huge revenge, that Jews never seem to be able to extinguish in themselves.

Third, while the wars and invasions of the Middle East, that were largely orchestrated by many Dual citizens of Israel, have started the clearing out of the "greater Israel" areas (the Zionist ideologists have been writing about for decades), there are still too many displaced people who need to be cleared out, so they open the doors to Europe and other Western/White nations.

I have to hand it to the Jews, they are simply brilliant for how they have done this with such a small population of people....and then it is only a percentage of their small population that has done this....very amazing.

Sorry to give them a compliment but I do think it will back fire on them someday though. By destroying the West they are actually destroying themselves.

*I think there is more than one goal for their agenda in opening the doors to the very people the West has been bombing for 15 years.*

It does seem that way.

The Jewish strategy seems to be to set groups against one another. The Jews do this both within nations (by promoting ethnic conflict, class conflict, sexual conflict, etc.) and between nations (by promoting war).

There is a genetic basis for Jewish behavior; it is hard-wired and thus inflexible. This is why the Jews always go too far; this is why the Jews cannot seem to learn from experience.

@Cathy

I agree with you and have made the same points in blogs many times.

But I see the Jews as a kept people. It is platitudinous to say that most Jews aren't in on – aware of – the core issues. I think they are what we might call "social padding" – making up the numbers, able to be turned on and off by the central Zionist actors. I am of the view that they are a "Kept Elite" (NOT victims, nor fully autonomous), but maintained as propagators of the "Extreme Wish" of the broad global-capitalist elite as kinds of "protected pioneers" of the current, next, outrage against the status quo.

In this context, the unchallenged Holocaust wasn't just a product of the "Jewish Mind", but part of the protection by their new benefactors.

The ("once") parasite had achieved their ambition of being sought after, an essential component of their host.\* This is at the very root of the apparent Jewish control over the European politicians (like Merkel in the current outrage, NOT a "Gun at her head"). And this is the source of the unspeakable "arrogance" expressed in the public utterances of Mmes e.g.

\*\*Evidence for power in this state:

(after recent article by Andrew Joyce)

"Was Nietzsche bold or stupid? As stated above, I don't think he quite fully grasped the scale of the ethnic conflict subtly playing out in Germany at that time, or the sheer power already enjoyed by Jews. For someone of his (then lowly) position, his 1872 lecture appears to me as a step too soon. Wagner had of course taken even further steps against Jewish influence – but the older man possessed significantly more stature and legitimacy. Nietzsche sent his lecture notes to Wagner on February 4, and the composer replied cautiously. Wagner, who was fully aware of the damage that could be wrought by Jews on lone targets like himself, responded: "I say to you: that's the way it is. ... But I am concerned about you, and wish with my entire heart that you don't ruin yourself." Cosima, Wagner's wife, also wrote to Nietzsche expressing concern. Starting by citing Goethe ('Everything significant is uncomfortable'), she said that his 'boldness' and 'bluntness' surprised her. In a later letter she makes her concerns more explicit, stating that she wanted him to take some "maternal" advice so that he should "avoid stirring up a hornet's nest" :

Do you really understand me? Don't mention the Jews, and especially not en passant; later, when you want to take up this gruesome fight, in the name of God, but not at the very outset, so that on your path you won't have all this confusion and upheaval. I hope you don't misunderstand me: you know that in the depths of my soul I agree with your utterance. But not now and not in this way."

The Greeks are fellow Europeans; they are white. "Altruism" is only for non-whites.

If you think for one second that the Germans would think of Greeks, or anyone else south of the Austrian border, as their equal in any sense, you're wrong.

Commenter Veritas is quite right in pointing out that the behavior of Germans *and* their politicians is not due to either WW2 guilt, nor feelings of altruism.

Yet, I also disagree with commenter Veritas' notion that Merkel's actions are due to personal character traits, such as greed and vanity.

Let me explain.

From time to time, an article is published, or a comment made here at TOO, that inadvertently but accurately describes the post-war attitude not only of German politicians, but of Germans in general – and it is an attitude that can hardly be described as "feeling guilty", or being altruistic.

For example, a commenter here at TOO not too long ago wrote that, back in the 1970s or 1980s, chancellor Helmut Schmidt wanted to repatriate the Turkish guest workers then in Germany. (According to the commenter, the idea was nixed by the US.) That does not strike me as a politician who had any guilt feelings about WW2 or who was "pathologically altruistic". Another example which disproves the notion of German WW2 guilt was the recent article, published here at TOO just last month, which translated the introduction of Thilo Sarrazin's book. In this introduction, Sarrazin writes in regard to the first 50 years after WW2:

*"And despite the fact that around 90% of the ruling class and the bureaucracy were willing accomplices of the Nazi dictatorship, their efficacy in leading the country's reconstruction was in no way affected."*

The fact that former Nazi officials made up a large percentage of Germany's post-war bureaucracy is a well-known fact. All a person has to do is read the Wikipedia writeup on the first post-war chancellor, Konrad Adenauer, who didn't like the fact that he had to include them in his government because of the scarcity of experienced non-Nazi functionaries at the time.

Anyone who thinks that these bureaucrats felt guilty about WW2 is nuts, plain and simple.

I myself was born in (West) Germany in 1960 and emigrated to the US in 1971, at the age of almost 11. After that, I returned to Germany about every other year on visits, until 1981. That was the last time I was in Germany.

At no time did I ever see any evidence of WW2 guilt or pathological altruism among the people I associated with. Quite the contrary (without going into details).

So, while it's been 35 years since I last visited Germany, I know things in Europe simply don't change *that* quickly. I can accept that perhaps attitudes regarding recent German history might be somewhat softer than they were during the 1950s through the 1970s, when most of the people that experienced WW2 were still alive (and many angry about it, especially the

aforementioned bureaucrats), but I simply cannot accept that the German attitudes would have become as submissive as they've been made out to be in the various white advocacy websites, the vast majority of which are based in the US and run by Americans who've never lived in Europe.

And while I'm at it, let me dispel a notion regarding the general prohibition of Nazi symbols in Germany, including giving the "Hitler salute" and using Nazi expressions such as "Sieg Heil", because it relates to the issue of WW2 guilt.

It is true that during the first two or three decades after WW2 this prohibition sought to help prevent a resurgence, or at least a popularity, of Nazism, but the 1980s this was largely no longer the case, mainly because all of those previously mentioned ex-Nazi bureaucrats were all retired or deceased.

Yet, throughout this time, and especially since the 1980s, the reasons for the anti-Nazi prohibitions morphed into something else, namely, that it was used to prevent people from calling Germans Nazis.

Germans generally have a very stubborn, authoritarian character, even to the point of surliness. Get into an argument with Germans in Germany (or most other places in Europe) and you can call them anything you want, except what most of them really are, authoritarian control freaks, ie, Nazis. Do so and you risk arrest, a fine and/or imprisonment.

In other words, they've got their own version of the Jewish prohibition against criticizing them.

No, concerning the current state of affairs in Germany, there are other, deeper political machinations going on here, the most likely of which probably having to do with Germany's desire to more closely align with Russia, which of course is vehemently opposed by the US/UK/Zio interests.

There is also Germany's desire to maintain the European Union, which it dominates (unfortunately, in my opinion), because the educated/political class in Germany knows that if they are to have much influence in world affairs, or even European affairs, their powers must extend past the borders of Germany. This too is opposed by the US/UK/Zio.

In my opinion, the US/UK/Zionist orchestrated influx of Muslims into Germany is being done as a warning as to what might happen if Germany were to align itself more closely with Russia. Beyond that I can't explain it, but the notion that Germans, including their politicians, are doing these things out of guilt or altruism is simplistic and absurd on the face of it.

It also seems that many of the article authors that claim these things have never even lived in Germany and write their simplistic opinions based mainly from the perspective of American white advocates. They have no idea of the ethnic animosities that exist in Europe, or that they are just as strong as the racial animosities that exist in the US – but anyway, I'm digressing into other subjects, so I'll leave it at that.

Germany guilty or altruistic?

Laughable.

Hence, my point is made Sgt, that the current generation of verräter effeminate twerps in Germany is waaayyy more motivated out of a desire for status-signaling (*status-whoring*) than they are out of any real sense of sincere concern, kindheartedness and "altruism" – *sincetrue altruism* would be 'color-blind'.

No, these awful traits do not hang over the *whole* European continent, but they are almost exclusive to *the Nordic countries*, and other lands in northwestern Europe.

As we have seen with Hungary, Poland, the Czech Republic, and other Slavic lands, these emphatically \*are not\* problems for the men in eastern Europe, and to a somewhat lesser extent, the countries of Latin, southern Europe.

White folks need to make a race-ist argument for why non-whites should support immigration restrictionism. White folks need to remind non-whites that the West will be better for non-white minorities IF the West remains majority white. If the West turns majority non-white, it will not only be worse for whites but for non-whites.

After all, non-white immigration trends are very race-ist or race-selective and race-conscious. Non-whites want to move to white nations with white rule and white majority.

How many Mexicans, Asians, Arabs, Muslims, Jews, Hindus, and etc. want to move to black Africa, brown Arabia, and etc? They might go there to find temporary work, but if they wanna permanently settle down in a new nation, they almost always prefer white nations.

Yellow Asians want to move to Australia, New Zealand, Canada, America, or EU. They don't want to move to black Africa, brown Arabia, curry India, Gomez Mexico, and etc. Indeed, most

Yellows would rather to move to a 'white nation' than to another yellow nation. They feel white rule is more fair than yellow rule. And this is no less true of Muslims. Muslims and Arabs are trekking to white Europe. They are NOT going to black Africa or Arab states. Some will say it has nothing to do with race and everything to do with economics. But as any honest person can notice, white folks run a better economy than non-whites do. It's been said the migrants don't seek refugee in places in Saudi Arabia because the Kingdom won't take them. But even if the Kingdom did open its arms, the migrants will choose to go to EU with more wealth, freedom, and rule of law. (Too much rule of law, in fact. Europeans are so into rule of law that they obey even crazy PC laws that hurt their own racial and territorial survival. When rule of law has gone crazy, whites must use rule of claw and claw back to victory.)

Now, all these immigration/migration patterns are race-ist since they show that non-whites prefer white nations over non-white ones. Also, they prefer to live under white rule than even the rule by their own kind. So many Asian Indian dotkins prefer white rule than dotkin rule. So many Chinese prefer white rule than kungpao rule. So many Korons-Korean morons-prefer white rule over Koron rule.

And then, look at all them Mexers pouring into the Gringonia. The tacoheads say all sorts of bad stuff about the gringo, but they would rather live under Grande Gringo, work for Grande Gringo, and follow the lead of Grande Gringo than live under Gomez Inc. Mexers may badmouth gringos, but they trust gringos much more than Mexicans who too often act like Mapache in THE WILD BUNCH and Juan in DUCK YOU SUCKER.

So, in terms of what they actually do (as opposed to what they say), Mexers are 'racist' against their own kind and pro-race-ist in favor of white rule. Mexers think white rule is superior to brown rule. If they thought otherwise, they would choose to remain in Mexico and live under brown rule. But so many Mexers move all over America to live white rule because white man is more likely to act like Will Kane in HIGH NOON than Tuco in THE GOOD, THE BAD, AND THE UGLY. Sadly, there are too many Tucos in Mexico. To be sure, the Great White Man ain't so great any more since he's been castrated and cucked by the GLOB. But even so, white rule is still better than non-white rule. As silly as Jeb Bush may be, would you rather live in a society ruled by people like Jeb or by the likes of Al Sharpton, Luis Guterrez, Clockboy's father, or George Too Gay Takei?

So, most immigration choices are race-ist. If not, most would-be immigrants would choose by lot what nation to emigrate to: white nation, black nation, yellow nation, brown nation, or etc. But almost always, their main preference is white nation. I mean if you were a Paki, would you rather move to India, China, Malaysia, Saudi Arabia, South Africa, or the UK? Of course, you would choose UK if you're sane. So, immigration preferences are race-ist and based on the assumption that whites run politics, society, law, and economy better all other races combined. Indeed, countless non-whites prefer white rule even over rule by their own kind. Why so many Chinese come here than live under yellow power in Middling Kingdom? Because white man treat yellow like dog-as-pet, but yellow man treat yellow like dog-to-beat-and-eat. (Non-whites value Western societies not only because of superior white rule but because of superior white civic involvement. In black societies, too many jaffers run around like lunatics, chuck spears, and holler like crazies. It is too anarcho-animalistic. In Asian societies and Mexico, too many people lack the individuality, courage, and conviction when something is wrong with society. Too many individuals are weak-willed like Hello Kitty or Guillermo. So, there is excessive corruption based on seniority and connections since most people just keep their heads low instead of having the guts to cry foul on it. In contrast, white folks have illustrated the Goldilocks rule. They are more independent-minded and critical of the system than yellows or browns are, but they are not crazy like jaffers who riot, loot, and act like baboons. Non-whites prefer the white society not only because of its superior use of power but its superior check on power. Indeed, even in criticism of power, the non-whites are incapable of coming up with their own ideas and instead only ape/imitate Western forms of 'progressivism'. Look at all the lamo non-whites bitching about 'micro-aggressions' and etc that was cooked up by white SWPL

types. Anyway, why is diversity bad for Western society? It not only undermines superior white rule — as whites lose in numbers and must politically pander to non-white dolts — but also undermines superior white civic-mindedness. As Robert Putnam has shown, white gentiles become less involved, less engaged, and less committed to social justice when diversity increases. People begin to hunker down. Indeed, the popularity of Bernie Sanders in overwhelmingly white communities shows that homogeneity correlates with civic-dutifulness. Sanders may be kooky and stuff, but his followers tend to be most idealistic... and very white. Increasing diversity means Jews can play more PC dirty games to create havoc among the gentiles and bait 'white guilt'. But even without PC, people tend to be more cynical and alienated when there's too much diversity as people of different races and cultures don't seem like YOUR OWN PEOPLE. You always feel like you have to watch what you say lest someone be offended. If white folks don't speak truth to power, non-whites won't do it either. Blacks are vocal, but their politics are so dumb; it's all about bullying and rioting, which undermines rule of law. As for non-black minorities, they lack originality and their ONLY form of criticism is spouting slogans planted in their minds by Jewish-homo elites. Such antics only go to demoralize whites even more. Also, as diversity increases, even white critics of power tend to focus more attention on dumb issues like 'inclusion' than on real corruption. Also, PC whites seem to think things will automatically improve if whites lose power and non-whites gain more power. In fact, evidence shows that things get worse when non-whites gain more power.)

Of course, given the rules of PC, so many non-whites bitch and hiss about 'white privilege' and 'white power'. They complain that their own kind don't have enough power in the US. But if they want to live in a system dominated by their own kind, all they have to do is GO BACK HOME. But uh oh, they don't want to live under the rule/power of their own kind. So, they are actually more 'racist' against their own kind than white people are. If Asian-Indian Americans aren't happy cuz America isn't ruled by their own kind, all they gotta do is go back to India and live under dotkin rule. Who is stopping them? And who forced them to come to US, Canada, or Australia?

It's possible that such most non-whites may not be griping so much and may indeed be nice to whites IF IT WEREN'T FOR THE FACT THAT JEWS CONTROL ACADEMIA, MEDIA, AND CULTURE AND ENCOURAGE NON-WHITES TO HATE, HATE, AND HATE WHITES. Making non-whites hate whites is a diversionary tactic to prevent non-whites from noticing that most whites are nice people and that the REAL VENAL POWER in the West is actually held by the Jews.

Blacks bitch so much about 'racism', but they don't want to live under black rule in Africa. Despite all the stuff they SAY, in terms of what they actually DO, blacks are 'racist' against black rule cuz they can't stand it. Also, blacks usually fight and kill other blacks cuz they can't stand one another. And black men often go for non-black women cuz they can't stand crazy black women who be acting crazy.

The fact that so many non-whites want to get away from their own rule — Chinese get away from Chinese rule, Indians get away from Indian rule, Nigerians get away from Nigerian rule, Mexicans get away from Mexican rule, Egyptians get away from Egyptian rule, etc. — means that they intuitively feel that it's much better to live in a white-ruled social/political/economic order. Deep down inside, they feel that white rule is superior.

And in order to ensure white rule, a democracy needs white majority that elects white rulers.

So, it is in the interest of non-whites to live in a nation that is majority white and white-ruled. If not, why do non-whites decide to forever depart from their own homeland to live under white rule in Western nations? After all, NO ONE forced them.

If Chinese don't like white rule and want to live under Chinese rule, go back to China.

If Indians don't like white rule and want to live under Indian rule, go back to India.

If Mexicans don't like white rule and want to live under Mexican rule, go back to Mexico.

If Nigerians don't like white rule and want to live under Nigerian rule, go back to Nigeria.

If Indonesians don't like white rule and want to live under Indonesia rule, go back to Indonesia.

If Filo don't like white rule and want to live under Filo rule, go back to Philippines.

Etc, etc, etc.

Also, if immigration is about helping to build and expand economies, shouldn't immigrants move to the poorest nations and help them out? Why do immigrants want to come to nations that are already technologically advanced, economically developed, and very rich? It would be like a doctor trying to help a healthy person.

It would be like an ordinary person helping a rich person.

If immigration is indeed a panacea of economic growth and prosperity, then immigrants ought to be idealistic & conscientious about the good they can do and go the poorest nations and work hard to develop the economy there.

But they just want to come to rich nations and suck off the prosperity, all the while being brainwashed by Jewish propaganda and black attitudes to HATE WHITEY.

This doesn't take account of realities. The world has been run in secret, in many of the biggest issues, by Jews. Jews have had in effect alliances with whites, with many catastrophic effects – for example Cromwell, Napoleon, both World Wars, and much 3rd world devastation: e.g. China, South Africa, Vietnam. Much of the move to white countries is because (so far) white countries on balance have had net improvement. And this is unquestionably related to 'IQ' and ethical teachings. You're ignoring this (who knows what might have happened without Jews?) and you're also ignoring the massive funding by Jews for population movement by people traffickers and race traitor politicians: without this I doubt there would have been anything like as much movement, as is shown by the fact that desperate actions to get black Africans to move were made e.g. by british officials under Blair.

February 3, 2016 - 12:03 pm | [Permalink](#)

There is also a lot of bullcrap coming from some of these insane bloggers, that are spreading the so-called "Truth" all over the Internet. Here is a statement that one of them, introduced by another one as "an eloquent critic of Zionism" has posted on his page not long ago:

"Those who brought the migrants into Europe did not expect the positive side-effect these refugees may have on the European populations in helping speed up their awakening to the Jewish problem. This could perhaps explain the well planned and well organized 'rape parties' that allegedly took place over New Year's Eve, to divert anger and attention away, far away from the usual suspects."

This man is a Muslim. He is running multiple pages on Facebook and other hosts. And he is not alone. Here is an excerpt from a text posted by one of his associates, also a Muslim:

"The German people now, in their vast majority, are a disgrace to their history, their heritage, their glorious past. Lost souls, debauched souls who love their debauchery, who take it as freedom and who believe that they are the light upon Europe in showing us the way forward."

She, the blogger, read about a German farmer that noticed "his once friendly flock of sheep were beginning to shy away from human contact." So, "he rigged a CCTV camera in the rafters of his barn to discover multiple men sneaking in during the night to sexually abuse his beloved livestock." There is no question for her about those men: the Germans!

These decadent, lustful burghers. Shame on them! And she goes on:

"As I tell everyone, Muslims do not drink, do not do drugs, do not have sex outside marriage and do not rape. I hope we will see an extensive apology from Lasha Darkmoon, who disappointingly jumped on the islamophobia bandwagon too."

Excuse me for quoting here such a preposterous crap, but this is the kind of trend that is going to increase.

These people are hardcore believers, and their belief is that "Allah will perish all religions except Islam" (Sunan Abu-Dawud, 37:4310). Their "prophet" tells them: "O ye who believe! take not the Jews and the Christians for your friends and protectors: They are but friends and protectors to each other. And he amongst you that turns to them (for friendship) is of them" (Qur'an, 5:51). It is expected that all decent folks should accept their "religion" because, as soon as decent folks are informed about the glorious teachings of Islam, all of them are going to proclaim: "What cause can we have not to believe in Allah and the truth which has come to us, seeing that we long for our Lord to admit us to the company of the righteous?" (Qur'an, 5:84). And those of them not among the good folks should become "companions of Hell-fire".

I am using quotation marks speaking of such "religions" because these ideological cults are nothing but tools of control and manipulation. These "religions" promise something like grace and bring nothing but fear and hatred. And there has been more than enough of fear and hatred for Europe in the past, coming from one of such "religions". Is it coming back?

As such the German Government has declared war against the people. I have called for German men to take up arms, make up a list of names and start assassinating the Elites involved in this attack on their Volk. When snipers start taking them out it will get their attention. This was very effective in Hungary back in 1956 when the Hungarians woke up to their Zionist Hostile elites and began shooting them as they stepped out of their Government offices.

Merkel and her Cabal are betting the German males, brainwashed for 70 years are so pussyfied with shame and guilt that they will never rise as did the Hungarians 60 years ago. Corresponding reports are on the increase, for instance this:

"Detailed research reveals Angela Merkels carefully hidden heritage:

- Grandmother a Galicean jew

- Father a Pole

- Both polish grandfathers fought against Germany in WW1

Angela Merkel is the first child of Horst Kasner, born Kazmierczak, and Herlind Kasner, born Jentzsch (according to intelligence sources in the US), was born in 1954 in Hamburg and gets the name Angela Dorothea Kasner.

She has (supposedly) two siblings, brother Marcus and sister Irene. The father, an illegitimate child of Anna Rychlicka Kazmierczak and Ludwik Wojciechowski, is a Protestant minister; the mother, a Polish jew from Galicia, a teacher. Her maternal grandfahter was Ludwik Kazmierczak, came from Poznan and fought in World War I against Germany.

A photo of her cousin second degree, her fathers cousin and nephews of her grandfather, the 79-year old retired bookkeeper Zygmunt Rychlicki, appears in the Polish newspaper "Gazeta Wyborcza". The picture shows her grandfather in the uniform of the so-called 'Haller Army', a unit of Poles who fought in the French Army against Germany.

Thank you for this blog. I just read the link below. Please do a similar essay on Bill O'Reilly, the Fox News Jew who pretends to be a conservative while passive aggressively being anti-white, speaking every night to an audience of sheeple who think that Fox News is a "conservative" alternative.

You could, I bet, uncover a similar back story regarding O'Reilly's connections — how did he end up where he is? Merely watching him on the air, such as when Trump is humiliating him, shows his Jewish mannerisms. When he gets flustered, his inner Jew comes out.

But I am interested in the type of in depth analysis and reporting that you do. Who are his parents? What Jewish connections and networking led to Bill O'Reilly being the national figure with the national megaphone on MSM that he has today?

The Trump phenomenon has really caused me to hone in on O'Reilly, and anyone with eyes can see that he is a snake. Let me guess; his real name, or his father's real name is not even O'Reilly, or his mother's name is Steinberg or something like that, right?

I am a goy lawyer and have been for nearly 20 years now, practicing litigation every day. (If I could go back in time, I would not have become a lawyer, but we all make decisions when we are 19 and not fully informed.) I have linked to your blog many times on other "alt right" blogs, with the comment that every white lawyer who has practiced law in any city for any length of time gets it. Your descriptions of the verbosity and talking just to hear their own voice combined with willingness to have no moral compass and simply misrepresent facts and law, is on point. The Jews completely dominate the legal profession, not just the US Supreme Court that gave us Obergefell, but also all of the state courts, and all of the law firms. They create all of the litigation. To them, it is a game. May the trickiest, most aggressive snake win. They create bullshit arguments that do not pass the laugh test, and circular reason and circular reason until they eventually end up believing their own lies. They try to confuse the judge and opposing counsel until up is down and down is up.

I could go on. I used to have a blog and I wrote a long essay on this topic. Every goy lawyer who gets it (a real conservative) knows what I am talking about.

And you have written other similar articles, about Jewish over-representation in academia, etc (one article about the corporate deal lawyer) — it's all about connections, aggressiveness, and tribal loyalty, not actual merit. They are not nearly as smart as they think they are.

For them the only question is "what is good for the Jew?" and win or lose — no "right" or "wrong" or what is good for the majority of the host nation or the status of the law.

Even in the adversarial system we have in the US, a lawyer has a duty to not flatly misrepresent facts or the existing state of the law. But the Jew has completely ruined our common law, in all areas, big and small. From bullshit slip and fall cases to misuse of "civil" RICO (was actually intended, of course, to literally take down the mafia — now under Jewish control of our legal system every simple breach of contract is turned into a civil RICO case, and the judges do not dismiss), to the fact that indeed "contract has drowned in a sea of tort," our legal system is a mess. Oh, then there is no-fault divorce and the "family" court. Not just the big picture things like abortion and gay marriage.

Every white man who is a practicing lawyer who gets it (and there are still thousands of us) understands what I am talking about.

These snakes control the permanent shadow government, the printing of money, the Fed, all big business and advertising, the media, Hollywood, and of course the legal system. They CREATE 90% of the litigation that happens, literally! Yeah, they sue each other too. They are everywhere, in every single lawsuit big and small, in state and federal court — lawyers and litigants on both sides, and the judge.

A few more accurate descriptors for the Wehrmacht: Effective, brave, well-led (certainly at the field level). They fought and died across a vast expanse of territory. Can this fighting spirit for their nation be renewed in today's German men? At what point, if any, do the military and police start to see mutiny among their ranks? As more of the middle class and professional folk protest loudly and openly, maybe things can turn around. The AfD may be their last, best chance.

"Going on the available 2009 figures—the figures are far higher now in 2016—the total number of foreign citizens living in Europe is roughly 32 millions. More than half of these (16.8 million) live in three European countries: Germany, Spain and the UK. Spain is second in Europe's Top of the Pops for foreign citizens flooding in, with 5.6 million immigrants, and the UK comes in third with just over 4 million."

In relation to the title of this story, "RAPE JIHAD, DARK DAYS OF EUROPE" which is a sensationalist headline resembling of all things, the dreaded Daily Mail UK tabloid, the figures for Spain are out of context. According to the graph provided, per capita Spain received the FOURTH largest number of migrants, not second largest. Most of these migrants are from Northern European countries, such as Germany, Britain, Holland, France. Denmark, Sweden etc There are also large numbers from Bulgaria and Romania. Europeans call themselves ex-patriots, but call people of colour migrants. There is no difference there are all immigrants.

"According to the Spanish government, there were 5,598,691 foreign residents in January 2010. Of these, well over one million and a half were from Latin America (especially from Ecuador, Colombia, Bolivia, Argentina and Brazil), three quarters of a million were Moroccan, while immigrants and expatriates from the European Union member states amounted more than two million (**especially from Romania, United Kingdom, Germany, Italy and Bulgaria**)."

Who is responsible?

Answer: European Christian.

Why?

Answer: Who allowed a certain tribe to come into Europe and buy even European Monarchs with their money? European Christians of course.

You have your answer. It's that simple. Too simple to accept.

To this day Germans are under 'American' NeoCon occupation.

Have the Germans ever protested this? Where is Arminius when we need him? Germans have been brainwashed to hate themselves. So, they do not replicate themselves. Then non-Europeans come in to fill the gap.

As for the USA, we must ask ourselves who bought the slaves from the tribe?

There is a certain amount of self evaluation that is necessary.

After the Romans conquered everyone, then all the 'everyones' wanted to come to Rome. Then, Rome fell.

GERMANY IS NOT A MONARCHY; ANGELA MERKEL'S QUESTIONABLE LEGALITY.

Thanks for the excellent article, Dr. Darkmoon. Please keep up the good work.

Germany is not a monarchy and one person like Angela Merkel cannot have all the power to import millions of aliens. So who gave her this power?

Another serious problem with Germany is that both major political parties in Germany are left-wing. In Germany, they criminally prosecute anybody speaking out against immigration, and ban conservative parties once they become popular, and so the poor Germans have a choice only between the ultra left (SPD) and the very left party of Merkel (CDU).

After WW2, USA basically took over Germany, and illegally had them pass a temporary framework called the "Basic Law" which gives all power to a "Federal Constitutional Court" and installed a sham democracy.

[https://en.wikipedia.org/wiki/Federal\\_Constitutional\\_Court\\_of\\_Germany](https://en.wikipedia.org/wiki/Federal_Constitutional_Court_of_Germany)

Even the German site below admits that theirs is a govt. under "Judicial control".

<http://www.tatsachen-ueber-deutschland.de/en/political-system/main-content-04/the-basic-law.html>

This Basic Law is NOT the constitution, was never ratified by the people, was temporary and has already expired. This Basic law and this "Federal Constitutional Court" are therefore unconstitutional and therefore illegal and null and void:

<http://www.rense.com/general69/germany.htm>

Since the Basic Law is null and void, all of Angela Merkel's decisions, such as allowing tens of thousands of 3rd world "refugees" and "migrants" to settle her country, her persecution of holocaust scholars, etc. are all ultra vires and therefore null and void.

This illegal court\*, is stuffed with Judges from the 2 main left wing parties, and these crooks then ban almost all right wing parties that are against immigration, etc. (often at the behest of the Judaists who file these cases, just like in other countries) so their left wing Jewish puppets like Angela Merkel remain in power.

\*In fact, even according to the liberal wikipedia, the appointment of Judges there is unconstitutional:

[https://en.wikipedia.org/wiki/Federal\\_Constitutional\\_Court\\_of\\_Germany#Appointment\\_of\\_judges](https://en.wikipedia.org/wiki/Federal_Constitutional_Court_of_Germany#Appointment_of_judges)

Germany is thus still US occupied territory with Angela Merkel as the puppet of a sham democracy.

Germany has criminalized debating the holocaust. Its Kangaroo courts were able to frame Ernst Zundel and Demjanjuk—a man cleared for the same allegations even by Israel's Supreme Court. There are no transcripts in Germany. Even the lawyer defending your case can be imprisoned—for defending your case, as it happened to Zundel's lawyer!!

SOLUTION: However, there are a few options for the German/European people to save themselves from this reign of terror and ethnic cleansing unleashed by the Judaists.

First of all, we must reach out to the German people through German language websites, etc. and make them aware that the holocaust is a hoax (such as through books like "Hoax of the

Century" by Butz, "The Holocaust Industry" by Finkelstein, etc.), that Israel is a criminal state, and the Judaism is a barbaric criminal mentally deranged cult, etc.

Secondly, the Germans can amend the constitution to allow binding superseding national referenda.

See National Citizens Initiative For Democracy, [ncid.us](http://ncid.us)

This can also be done by supporting parties that just focus on this one issue first—amending the constitution to allow binding superseding national referenda, whereby people can pass laws themselves. The PEOPLE must decide if they want more "refugees" or not, not corrupt German (or other) politicians and their puppets in the Federal Constitutional Court.

Secondly, all other Europeans must vote for rightist parties and they must all ban immigration first and get out of the EU. They must decriminalize speech so people can freely criticize immigration and debate the holohoax. By getting out of the EU, it would weaken Angela Merkel and the left-wing German govt.

German citizens can then set up websites, radio stations and other media or political parties just outside Germany whereby they could consider appropriate forms of

rebellion/revolt/revolution (as permitted under the laws of the jurisdiction) against the German govt. These conservative govts. outside Germany can then put pressure on left-wing German politicians like Merkel to ban immigration, mock them, put sanctions on them and even try them for crimes against humanity, which alienism and though control (such as criminalizing political speech, such as criticism of 3rd world immigration, Muslims, Judaists, holohoax, etc.) are.

For such crimes against humanity, like alienism, there is no immunity, no statute of limitations and any govt. can assert extra-territorial jurisdiction over crimes committed even outside its borders.

You write the truth. Germany is an economic giant, but a political dwarf and an US vasaal state. Political discussions on TV on the current US elections sound like extensions of the US democratic party. Trump is being compared to the German AfD (Alternative for Germany), with the obligatory words of "fascist, extremist, right wing populism" and all the know obligatory emotional jargon for the weak and influenceable masses.

In order to build up a popular resistance movement, one has to move inside very carefully defined parameters, in fact so narrow that one stands in danger of defeating the very purpose of the movement.

When one moves slightly beyond these parameters, and only then one will become effective, this happens:

<http://www.amren.com/news/2016/01/germany-bans-far-right-internet-platform-arrests-two/>

And then there is the question of the allied armed forces inside Europe and Germany, there where the real striking power lies. The Russians have moved out, the Americans not. The soldier on the ground may be well-disposed toward the Germans, but orders are orders when push comes to shove.

## Dutch halt reparations to Holocaust survivors receiving them elsewhere

Omri Efraim, Published: 02.03.16, 10:09 / [Israel News](#)

**The Netherlands has decided to stop payments to Dutch survivors who already receive a payment from Israel; Israel's Holocaust Survivors' Rights Authority sent notice to survivors stating that survivors already receiving a payment cannot be paid by Israel.**

The Dutch government's decision to stop transferring payments to Holocaust survivors who also receive one from the Israeli government, has sparked outrage among survivors from the Netherlands.

During a hearing Tuesday, the Knesset Finance Committee found out that the Dutch government's decision was made following their finding out that an equivalent benefit was given to survivors from Israel's Finance Ministry.

Following talks conducted between the Dutch authorities and Holocaust survivors' organizations in Israel and the Finance

Ministry's Holocaust Survivors Rights Authority, survivors received a notice at the end of December. Channel 10 reported that those who receive a monthly payment from the Dutch government will not receive the payment from the Israeli Ministry of Finance.

In the letter sent by Ofra Ross, director of the Holocaust Survivors' Rights Authority it was noted that by law the benefit cannot be paid to survivors already receiving a survivor's allowance.

The letter ended by saying: "we apologize for the inconvenience and wish you good health and longevity." In addition, the elderly survivors were told that they had to report to the authority within two weeks if they receive a payment from the Dutch government.

### Dutch Holocaust survivor Abraham Roth

Abraham Roth, 87, a Holocaust survivor from the Netherlands, testified Tuesday in the Finance Committee hearing. Roth, who survived the ghetto in Amsterdam and whose two sisters were murdered in Auschwitz, said that many Dutch Jewish Holocaust survivors would rather give up the Israeli Ministry of Finance's allowance provided the government in Amsterdam does not stop its payment to survivors.

"The Dutch government is trying to find a technical loophole to save a few bucks on the backs of Holocaust survivors, while the Israeli government announced the termination of the allowance," said Roth. "The Dutch have a responsibility to the survivors and the crimes committed in their territory, and they cannot shirk it. The two governments cannot deny their obligations towards the survivors."

As far as is known, the Dutch government's decision has not yet been put into practice. However, the chairman of the Finance Committee, MK Moshe Gafni (United Torah Judaism) announced Tuesday night that he would turn to Prime Minister Benjamin Netanyahu to urge him to intervene in the Dutch government's decision. "I am determined to resolve the matter and will definitely not let it pass just like that."

## BREAKING:

### Saudis 'Ready' to Send Troops Into Syria

[Rudy Panko](#), 5 February 2016

#### Riyadh says it is ready to send ground forces into Syria if 'asked' by the US. What -- ISIS needs backup?

By all accounts, Saudi-supported "moderate" rebels are steadily losing ground to the Syrian Arab Army and its allies. Earlier today [it was reported](#) that Syrian forces had successfully carved out a corridor between its main territory held in Aleppo and a tiny Shia enclave adjacent to a larger Kurdish enclave on Turkish border, effectively [ending a 3-year siege](#). In plain English, this means that Syria is one step closer to finally sealing its porous border with Turkey.

A sealed border would mean that weapons and "moderates" would no longer be able to skip into Syria unmolested.

The Saudis have invested heavily in this war, and now they're on the verge of losing everything. Even with a disastrous "intervention" raging in Yemen, Riyadh has now pledged to send ground forces into Syria, but only if "asked":

This is pure desperation. But more importantly, it's a public declaration from the Saudis that they are prepared to turn a (rather transparent) proxy war into a direct confrontation with Syria, Iran and Russia. Also, we know this is quaint to point out, but the Saudis would be "fighting ISIS" in Syria? [Really?](#)

### ...from the archive: 'Tinkering Jew' slur costs planner

[Gina Rushton](#), Journalist, Sydney, [The Australian](#), June 30, 2015 12:00AM

#### A financial planner who called Assistant Treasurer Josh Frydenberg a "tinkering Jew" in a stream of social media abuse has lost his professional licence and will be subject to an investigation by a peak industry representative body.

The self-licensed Libertas Financial Planning has terminated the authorised representative status of Retirement Wealth Advisers. Brisbane financial planner James Howarth is the principal. Mr Howarth attacked Mr Frydenberg on Twitter for supporting a proposal on the remuneration of life insurance sales staff that would cut large upfront commissions for financial advisers.

"What a cock sucker. First course of action was to regulate insurance salaries. Tinkering Jew," Mr Howarth tweeted to his 5855 followers.

Another said: "Get your Josh Frydenberg 'Central Planning Jew' punching bag."

The changes, first proposed by the life insurance industry, would cap controversial advance commissions to 60 per cent of a policy's premium in the first year. Upfront commissions on retail life insurance have been as high as 120 per cent but advisers would face a commission cap of 20 per cent on life insurance premiums under the proposals.

Libertas director Mark Euvard told The Australian that Mr Howarth's behaviour was "inappropriate and unacceptable" and did not reflect the culture of the dealer group. "He has been served notice that his licence has been revoked," Mr Euvard said.

Asked whether it was necessary to voice his concerns using - derogatory language and with reference to race and religion, Mr Howarth responded: "Yes, I stand by my comments."

Mr Howarth's LinkedIn profile says he worked as an "equity analyst" at Goldman Sachs for more than six years. "According to our records, it doesn't appear that he ever worked for Goldman Sachs," a spokesman from the investment firm said.

The Financial Services Institute of Australasia, of which Mr Howarth is a fellow, has launched an investigation into the incident, chief executive Russell Morris said.

"The comments reported by The Australian are offensive and have been referred to Finsia's disciplinary committee for review," the associations head of corporate affairs and policy, - Caroline Falshaw, said.

The association may then expel or suspend membership. The Association of Financial Advisers "condemned inappropriate and racist comments" made by Mr Howarth. "If he were (a member of AFA), this would see him sanctioned and his membership terminated," the association's chief executive, Brad Fox, said.

Mr Frydenberg, who is Jewish, said he blocked Mr Howarth on Twitter after the offensive comments. "This nasty, personal and derogatory language is not becoming of a financial adviser, let alone anyone else, and is completely over the top," he said on Sunday.
